

Lead Retrieval Services

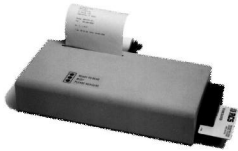

Attention Exhibitors

- *ExpoMobile*

ExpoMobile is a hand held, battery operated, touch screen computer. The ExpoMobile is customized to meet your requirements, by way of your products & services, questionnaire, and/or your sales team. Your company will receive the qualified lead report on diskette. Your diskette file will be a standard text file.

- *ExpoPrint*

ExpoPrint is an excellent entry-level lead gathering device. Robust and easy to use, the device allows you to electronically capture basic information from the attendee badge, while providing a paper printout of your lead. The lead information is downloaded to a floppy diskette in a standard text file format.
